Federal IT Program Cheat Sheet

GUIDE TO IDENTIFYING FEDERAL SALES OPPORTUNITIES FOR FISCAL YEAR 2017

immixGroup

An Arrow Company

immixGroup's Federal IT Program Cheat Sheet identifies top-funded programs within 26 civilian and defense organizations, along with budget information and relevant contractors tied to each program. This comprehensive report is organized agency-by-agency with programs arranged by FY17 IT budgets.

For each agency you'll find:

- A program list
- A brief description of each program
- Funding information broken down by total funding, Development Modernization and Enhancement (DME) funding, and Steady State (SS) funding technology requirements
- Relevant contractors and activities undertaken by each contractor

With acquisition planning underway for FY17, now is the perfect time to have strategic conversations with your customers about next year's goals and how your solutions can help achieve them. immixGroup clients can contact their account team to gain insight into FY17 agency IT priorities.

If you have questions regarding the content or application of the Federal IT Program Cheat Sheet, contact immixGroup's Market Intelligence Team today at Market_Intelligence@immixgroup.com.

Health and Human Services

Program	Description	FY17 DME	FY17 SS	FY17 Total	Technology Requirements	Relevant Contractors	Contractor Activity
CMS IT Infrastructure	CMS IT Infrastructure provides the IT platform that is essential in serving Medicare & Medicaid beneficiaries, provides partners and stakeholders with prompt, secure access to information for decision-making purposes, and supports other IT objectives.	0.00	398.64	398.64	Configuration Management; Data Centers & Servers; Enterprise Architecture; Network Management; Storage; Advanced Persistent Threat Defense; Continuous Monitoring; Identity, Credential, & Access Management; Network Security; Perimeter Security /Firewalls/Intrusion Detection/Protection; Security Information & Event Management	Lockheed Martin; HP; Blue Cross Blue Shield; General Dynamics; Wellpoint; IBM; CGI; Accenture	Lockheed Martin - Baltimore Data Center operations; Blue Cross Blue Shield, General Dynamics, Wellpoint, IBM, CGI, Accenture - Virtual Data Center support
CMS Healthcare Integrated General Ledger Accounting System	CMS Healthcare Integrated General Ledger Accounting System (HIGLAS) transforms, modernizes, and strengthens federal financial accounting by developing and implementing a single, integrated dual-entry accounting system that replaces the separate legacy accounting/payment systems for Medicare & Medicaid.	0.00	113.82	113.82	Application Development; Application Lifecycle Management; Data Management; Data Integration; Business Process Management; Application Security; Data Protection	IBM; Mythics; Scope Infotech; Sekon Enterprise; SRA International; Tantus Technologies	IBM - HIGLAS system integration; Mythics - Oracle Software and maintenance; Sekon Enterprise - R12 Consulting
IHS Resource and Patient Management System - Maintenance & Enhancements	The IHS Resource and Patient Management System (RPMS) is a componentized electronic health care information system that provides practice management functions for IHS-direct, Tribal, and urban healthcare delivery facilities and programs.	19.29	92.56	111.86	Application Development; Application Lifecycle Management; Middleware; Service Oriented Architecture; Business Intelligence & Analytics; Data/Information Management; Data Integration; Visualization; Workflow Management	General Dynamics; Medsphere; Data Networks	General Dynamics - Software engineering and support; Medsphere - Electronic health record design; Data Networks - Software QA

Navy

Program	Description	FY17 DME	FY17 SS	FY17 Total	Technology Requirements	Relevant Contractors	Contractor Activity
Next Generation Enterprise Network	Next Generation Enterprise Network (NGEN) is the program name for the Navy-Marine Corps Intranet (NMCI), an enterprise network which provides secure net-centric data and services to Navy and Marine Corps personnel. NGEN forms the foundation for the service's future Naval Network Environment.	0.9	1,270.9	1,271.8	Application Integration/Rationalization; Collaboration; Command, Control, Communications & Computers; Data Mining; Information Sharing; Cloud Implementation/Management; Consolidation; Data Centers & Servers; Enterprise Architecture; Network Administration/Management; Storage; Cybersecurity; Network Security; Data Integration; Intelligence, Surveillance, & Reconnaissance; Systems Development & Integration; Intelligence Analysis	HP Enterprise Services; AT&T Government Solutions; IBM; Lockheed Martin; Northrop Grumman	HP Enterprise Services - Strategic integrator for Navy's shore-based network; AT&T Government Solutions - Telecommunications; Northrop Grumman - Command and control; IBM - Information technology
Consolidated Afloat Networks and Enterprise Services	Consolidated Afloat Networks and Enterprise Services (CANES) is an enterprise afloat system. CANES will provide management services, enterprise services such as e-mail services, directory services, information repository service, web services, etc.	234.4	80.4	314.8	Application Integration/Rationalization; Collaboration; Command, Control, Communications & Computers; Data Mining; Information Sharing; Cloud Implementation/Management; Consolidation; Data Centers & Servers; Enterprise Architecture; Network Administration/Management; Storage; Cybersecurity; Network Security; Data Integration; Intelligence, Surveillance, & Reconnaissance; Systems Development & Integration; Intelligence Analysis	CGI Federal; DRS Laurel Tech; BAE Systems; Technology Solutions & Services; General Dynamics; C4 Systems; Global Technical Systems; Northrop Grumman; Serco	Each vendor is guaranteed to produce only one firm fixed-price destroyer-based system installation. After that, all 7 vendors compete for any future task or delivery order based on price, performance and quality.
Base-Level Information Infrastructure	Base-Level Information Infrastructure (OCONUS Navy Enterprise Network (One-Net)) is the OCONUS equivalent to CONUS NMCI network (NGEN). One-Net will eventually be incorporated into NMCI.	0.0	155.5	155.5	Application Integration/Rationalization; Collaboration; Command, Control, Communications & Computers; Data Mining; Information Sharing; Cloud Implementation/Management; Consolidation; Data Centers & Servers; Enterprise Architecture; Network Administration/Management; Storage; Cybersecurity; Network Security; Data Integration; Intelligence, Surveillance, & Reconnaissance; Systems Development & Integration; Intelligence Analysis	CSC; Booz Allen; Engility; HP; SAIC	CSC provides all IT services for One-Net to include network connectivity, desktop support, web access; One-Net will get rolled up into NGEN by FY17
